

MAYLO DARING PARRA AGUIRRE

Full Stack Developer

EDUCATION

BACHELOR'S DEGREE IN BUSINESS INFORMATICS (IN PROGRESS)

2023-2026

Universidad de Costa Rica

- I am currently in my fourth year of university, developing additional skills both through coursework and independent learn
- I have led several projects in different courses and consistently delivered them ahead of schedule.
- I have already led a Full Stack project involving web development and backend infrastructure using virtual machines, with the possibility of migrating the system to a production environment.

EXPERIENCE

UNIVERSITY PROJECTS

I have completed several academic projects at the university and always aim to deliver them with the highest possible quality and within the shortest time.

Dichos proyectos los he sacado adelante gracias a el liderazgo, organización y aprendizaje continuo durante la carrera, además de aprender de los errores que uno se va encontrando en el camino

PROJECTS

CLOTHING STORE WEB APPLICATION

2025

 University Project

- Designed and implemented the database using PostgreSQL hosted on an Ubuntu Server virtual machine.
- Developed the website using PHP, Tailwind CSS, JavaScript, and other technologies.
- Implemented the connection between the website and the database using JavaScript.
- Used Node.js to handle Tailwind class compilation.
